

NOTE :

! please pay attention to the polarity !

This board gets its supply voltage through the connector X5

24V and GND are labeled on the board

PWM1 -> free Pin on printer board (eg. P3.25 on a SKR1.4)

PWM2 -> free Pin on printer board (eg. P3.26 on a SKR1.4)

PWM1 -> cooling Fan's

PWM2 -> filter Fan's
